**PHARMAHEALTHLABS RECEIVES NJBIZ FAST 50 AWARD**

MORRISTOWN, NEW JERSEY – NJBIZ, the leading business journal in New Jersey, has recognized PharmaHealthLabs (PHL) as one of New Jersey’s 2019 Fast 50. This is PHL’s first time receiving the NJBIZ Fast 50 award, which celebrates the companies that contributed to the state’s economic growth and stability in the past year. The company accepted the award at a ceremony hosted by NJBIZ on Nov. 14, 2019.

“Our clients are the foundation of everything we do at PHL,” said Jennifer Scott Harmon, PHL Managing Partner, upon accepting the award. “Our growth in the past year reflects the deep partnerships we have forged with our clients, partnerships built on mutual learning and intense collaboration. Our clients trust us with their aspirations, and, in return, we strive to provide them with a level of innovation and personal care that is unmatched in the pharma life sciences industry. Being named to the NJBIZ Fast 50 list is a validation of our partnerships and an inspiration to stay true to ourselves as we push forward to new heights.”

“The NJBIZ Fast 50 award is also an inspiration to stay true to our core values—putting the client first, maintaining accountability, pursuing bold innovation, and enabling each team member to be the best they can be, both in their personal and professional lives,” Harmon continued. “These values are at the heart of who we are as a company, and we’ve been fortunate to build a team that reflects these values in everything they do.”

**About NJBIZ Fast 50**

Applicants for the NJBIZ Fast 50 award submitted three years of revenue information to a selection committee in order to demonstrate revenue of at least \$500,000 each year while also showing increasing revenue from year one to year three. The selection committee then reviewed this information and ranked applicants by both dollar growth and percentage of growth over the review period. The committee chose the honorees based on these rankings. Award recipients represent the diversity of the New Jersey business community and include among them companies both big and small and from a variety of industries.

**About PHL**

PHL’s mission is to ground people in science - through education, collaboration, and innovation, we simplify the vast complexities of science and bring together the elements necessary for effective communication. Our clients include multiple top-20 pharma companies, and our team is comprised of seasoned professionals with diverse experience in medicine, pharmacy, brand marketing, and business development. We pride ourselves on delivering projects on time, on budget, and with exceptional quality and attention to detail. With our mass combined experience, we can provide our clients a multitude of services, including creative, strategy, scientific communications, and engagements.
